

RAHIL MUKHI

Darwin, NT | 0468 330 786 | mukhirahil05@gmail.com

PROFESSIONAL SUMMARY

Master of Information Technology (Software Engineering) student at Charles Darwin University with business analysis training and hands-on software delivery experience. Skilled in gathering requirements, analysing competitors, mapping processes, and reporting with SQL and Power BI. Holds the Atlassian Agile Project Management Professional Certificate. A clear communicator keen to bridge business and technology teams.

WORK EXPERIENCE

- | | |
|--|---------------------|
| Motivolog | Jul 2026 - Oct 2026 |
| <ul style="list-style-type: none">• Compared open-core licensing and pricing across 11 competing tools to recommend a strategy for is.team.• Built and released Task Loop, an offline-first iOS and Android checklist app, now live on the App Store.• Developed OneShot, an on-device duplicate photo cleaner, validating results against a ground-truth dataset and replacing an approach that missed 30-43% of true duplicates.• Designed both apps to collect no user data and took them through App Store and Google Play review, including privacy manifests and data-safety forms. | |
| Spider Communication | Jul 2024 - Oct 2024 |
| <ul style="list-style-type: none">• Contributed to a real estate listing and analytics platform, helping implement Python models that analyse property trends and power price estimation.• Joined senior developers in sprint planning, documentation and progress reporting for on-time delivery.• Supported data preprocessing, testing and debugging to improve platform reliability and performance. | |
| ViitorCloud Technologies | Feb 2024 - Apr 2024 |
| <ul style="list-style-type: none">• Contributed to a predictive analytics model for business insights, from data collection and cleaning to building and testing the model under senior guidance.• Wrote technical documentation and progress reports, delivering modules on schedule in an Agile team. | |
| Amivir Infotech | Jul 2023 - Aug 2023 |
| <ul style="list-style-type: none">• Helped develop a hotel search and booking website, building responsive interfaces connected to the booking backend and data storage.• Tested and debugged the site to ensure smooth navigation, reliable functionality and optimised performance. | |

EDUCATION

- | | |
|--|--------------------|
| Master of Information Technology (Software Engineering) | Nov 2024 - Present |
| Charles Darwin University, Darwin NT GPA: 5.42/7 | |
| Bachelor of Computer Engineering | 2020 - 2024 |
| Gujarat Technological University, India CGPA: 8.22/10 | |

SKILLS

Business Analysis: Requirements gathering, stakeholder communication, competitor analysis, documentation
Process & Design: Process mapping, user stories and backlogs, prototyping; Visio, Lucidchart, draw.io, Miro, Figma
Data & Reporting: SQL, Power BI dashboards, Tableau, Advanced Excel, Python (pandas, NumPy, scikit-learn)
Agile Delivery: Agile/Scrum, Waterfall, sprint planning, testing; Jira, Confluence, Trello, Teams, SharePoint
Technical: Java, JavaScript, HTML, CSS, Swift, Kotlin, Flutter, Supabase, PostgreSQL, Claude API

CERTIFICATIONS

Atlassian Agile Project Management Professional Certificate

LinkedIn Learning

- **Business Analysis:** Strategic Business Analysis Essentials; Fundamentals of Business Process Mapping
- **Tools & Data:** Power BI: Dashboards for Beginners; Visio 2021 Essential Training; SQL Hands-On Practice: Solve Business Problems

- **Agile & Project Management:** Agile Foundations; Scrum: The Basics; Jira Cloud; Project Management: Setting and Managing Expectations
- **UX & Design:** UX Foundations: Prototyping; Designing Product Interaction

PROJECTS

Green Miles | Sustainable travel tracking app

- Gathered and refined requirements through weekly client meetings, translating them into a prioritised product backlog delivered over six Agile sprints in Jira.
- Carried out stakeholder and competitor analysis (Strava, MyFitnessPal and carbon-footprint apps) to define target users and the app's competitive position.
- Delivered a mobile app that tracks trips by GPS and calculates carbon savings against a petrol-car baseline, supported by a Figma prototype, QA testing each sprint and a documented handover.

House Price Prediction | Predictive analytics web application

- Developed a predictive model on housing data to estimate property prices, covering data cleaning, feature selection and regression modelling.
- Implemented a web interface that generates real-time price predictions from user inputs.

Smart Learn | AI-powered learning platform

- Built a gamified learning platform for grades 1-10 that turns any topic into a personalised course with lessons, six interactive quiz types, XP, streaks and a leaderboard.
- Added an AI feedback loop that reviews each student's answers and generates a revised course targeting their weak spots, with secure sign-in and private student data.

LEADERSHIP & COMMUNITY

Student Representative, Your Voice Student Network, Charles Darwin University

- Represent student experience to the university, sharing ideas, improvements needed and what is working well to positively impact university life.

Committee Member, Better Together Committee, Charles Darwin University

- Collaborate on student-focused initiatives, awareness activities and events that foster a respectful, safe and inclusive campus culture.
